Oleksandr Postylha

Junior PHP Developer

Self-taught backend developer with more than two years of learning and continuous skills improvement processes. Proficient in basic programming concepts and tools: data structures, OOP paradigm, MVC and MTV patterns (for Laravel & Django respectively), debugger and version control usage, Unix-like operation systems and Bash scripting, relational databases (MySQL & SQLite), API design and integration, frontend elementary (web page structure and layout). Once started with interactive courses like Codecademy, I'm focused on practice and project-based learning process now. With patience and perseverance any issue may be solved (some of them just may take a bit longer than others 😅).
Eager to progress and make my own growing contribution to the result of experienced team hard work.

Contacts:

- postilha.a@gmail.com

- +38(093)362-18-71

- https://t.me/a_z_3_8

Skills:

- PHP (Laravel)

- REST API

- MySQL

- Bash

- Git & GitHub

- HTML

- CSS

- Python (Django)

- Figma

Languages:

- English (B2)

- Ukrainian

- Russian

Portfolio:

- Test Task (REST API/PHP)

- Spotify Downloader (Laravel)

- Restaurant Inventory Management App (Django)

- Codewars katas (Python/PHP)

Work Experience:

- Lead Generation Executive & Strategist   Nov 2021 - Feb 2022
  Magnito.Agency

- Lead Generation Executive   Apr 2021 - Nov 2021
  ABM Cloud

- Lead Generation Specialist   Apr 2020 - Apr 2021
  Intellectsoft

- Researcher, Senior Researcher   Apr 2018 - Apr 2020
  CIENCE

Courses and Trainings:

- Codecademy (Intermediate Python 3, Django, CSS, HTML, etc.; more on LinkedIn)

- edX: Introduction to Linux by LinuxFoundation

- University of Waterloo: Computer Science Circles
